

3RD INTERNATIONAL AGRI-LIFE AND BIORESOURCE SCIENCES SYMPOSIUM

March 10-13, 2027 | Roxas City, Capiz, Philippines – THE SEAFOOD CAPITAL OF THE PHILIPPINES

GUIDELINES FOR ORAL PRESENTATION

If your presentation has already been accepted, please find the appropriate sections below on how to prepare it, and read them carefully.

Talk details

Talks are presented in English. There will be ten (10) minutes available for each talk, plus five (5) minutes for questions, making fifteen (15) minutes in all. The chairperson of your session will terminate your talk when your time is up. Rehearse your talk beforehand to make sure that you have enough time for everything you want to say. It is usually only possible to present an average of about one slide per minute of the talk. Complicated slides take longer.

Audiovisual aids

Speakers should hand over their PowerPoint presentation at the registration desk when they first check in to the conference so that it can be loaded onto our computer's hard disk. Please label your memory stick with your name. Speakers should also ensure that they run through their presentation in advance (at least 15 minutes before your oral presentations) to ensure compatibility with local hardware and software. The conference organizers will try to help if there are problems. However, if you have prepared your PowerPoint presentation on an Apple Macintosh computer we strongly advise you to check that it works correctly on a PC before coming to the conference.

All speakers should arrive at the assigned rooms 30 minutes prior to the start of their session. Please make yourself known to the chairperson at the beginning of the break before your session and indicate to them how you would like to be introduced. However, please note that you should have handed in your PowerPoint presentation and checked it well before that - if there are problems it will probably be too late by then to fix them.

Full Paper Submissions

Presenters accepted for Oral Presentation are carefully selected. Each presenters are requested to submit their full manuscript to be considered for publication in the Special Issue (**journal to be identified**). The manuscript contents should be arranged as follows:

Page 1	Complete authors' and/or co-authors name, designation, agency/institutional affiliation, mailing addresses, email addresses
Page 2	Title of Article Abstract (at most 200 words in one paragraph) Key words (at least two)

Page 3 onwards	INTRODUCTION (with clearly specified objectives) MATERIALS AND METHODS RESULTS AND DISCUSSIONS CONCLUSIONS AND RECOMMENDATIONS ACKNOWLEDGMENT (if any) REFERENCES
----------------	--

The manuscript should be typed double-spaced on A4 (210 x 297 mm) paper size, with margins of 2.54 cm on all sides. Text should be in 12 points Times New Roman font. Sentences should be separated by one character space and paragraphs should be separated by three (3) line spaces.

Tables and figures should be integrated in the flow of discussion. They should be mentioned separately in numerical sequence. Each figure should be labeled with an Arabic number and the caption should be sentence style (without a period at the end) placed below the figure. If necessary, each should be complete with endnotes. Maps should have a scale. Illustrations should be of professional quality and ready for reproduction. Maps and illustrations should be no larger than 11.43 x 17.78 cm (full page) and should be capable of legible reduction to a size no larger than 11.43 x 8.89 cm (half page).

GUIDELINES FOR POSTER PRESENTORS

The Poster Presentation Category provides participants with an opportunity to communicate their research in a concise, visually engaging, and interactive format. Through this platform, presenters can highlight the significance, methodology, findings, and implications of their studies while engaging in meaningful discussions with evaluators, fellow researchers, and conference attendees. Please be ready to put your poster up on a display board we will provide during the morning break on day 1 of the conference. A panel board will have been allocated to your poster and you will find a label with your name below the board you should use. A staff will be available to advise you if necessary. You are requested to remove your poster on the last afternoon of the conference; we cannot take responsibility for posters left up after this time. There will be poster sessions during the conference (final schedule will be announced later). Please stand by your poster during sessions to answer questions. Do make the most of the chance to introduce yourself and discuss your work.

To ensure fairness, consistency, and academic excellence, all participants are required to adhere to the following guidelines and evaluation criteria.

A. Poster Format and Layout

1. Poster Size and Orientation

- Poster size: 36 inches (width) × 48 inches (height)
- Orientation: Portrait

2. Font and Readability

- Title: At least 72 pt, bold, uppercase
- Author(s): At least 48 pt (include affiliation and email address)
- Section Headings: At least 36 pt

- Body Text: At least 24 pt
- Font style: Arial

3. Color and Design

- Use high-contrast colors for readability
- Avoid overly bright or very dark backgrounds
- Maintain consistency in font size, color scheme, and layout

B. Poster Content

Posters must include the following sections:

1. **Title** – Concise and reflective of the study focus
2. **Authors and Affiliations** – Full names, institutions, and email addresses
3. **Abstract** – Maximum of 300 words
4. **Introduction** – Background, problem statement, and objectives
5. **Methodology** – Materials, methods, procedures (diagrams encouraged)
6. **Results and Discussion** – Key findings with tables, figures, or graphs
7. **Conclusion and Recommendations** – Summary and future directions
8. **References** – Key references (APA style recommended)
9. **Acknowledgments (*Optional*)** – Funding sources and contributors

C. Display Requirements

- **Bring a printed poster for on-site display**
- Mount the poster 1 hour before the presentation

Important details:

1. Do consider including a picture of yourself (maybe in the field) so that someone who reads your poster and wants to meet you to learn more can easily find you.
2. Don't forget to include names of collaborators and logos of funders or your host institution.
3. Tell us how to find out more - some people include a web or email address, and some people have a sign-up sheet where people can leave their email address if they want to hear more. If you are on Facebook, IG or Twitter consider uploading your poster to a slide share website such as <http://www.slideshare.net/> and tweeting your poster with the conference hashtag #3rdIALSS (this can attract people to your poster for a chat as well as allowing those following the conference from afar to see your work).
4. We request you to also print 15-20 copies of your poster in a bond paper that you will place beside your mounted posters so the participants can get a copy and read it after.

The more creative and imaginative the better!
